1 in 3

of world population are at risk of metabolic syndrome

Insulike*

Tablets

A Nutriphenotypic Approach

Nutritional support to help lower

- Elevated blood sugar levels
- High triglycerides
- Increased waist circumference
- Decreased high-density lipoprotein (HDL)
- Elevated blood pressure

The Power to protect

Helps to support the benefits of controlling diabetes beyond the Glucose Metabolism & Cardiovascular function

A vital nutrient support for cellular energy metabolism and oxidative injury

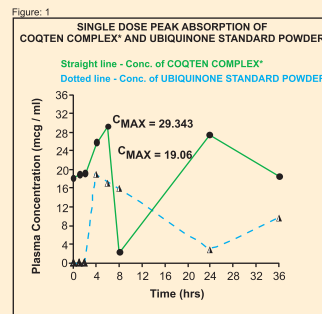

Physically Different Experimentally Proven

<p>Poorly Absorbed Crystalline Ubiquinone (CoQ10) Powder</p> 	<p>V/s</p>	<p>COQTEN COMPLEX* Mechanically texture modified liquid solubilisate biometric patent pending proprietary formulation</p> 	<p>36 hours single dose absorption and 21 day steady state bioavailability comparison study has shown "COQTEN COMPLEX"</p> <p>9 fold better bioavailability 10 fold greater absorption</p>
--	------------	---	--

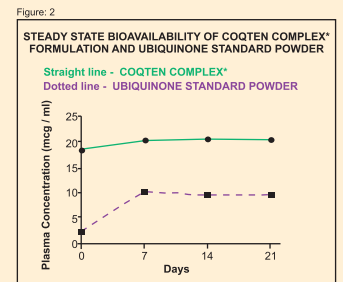

COQTEN COMPLEX* - A proprietary coenzyme q10 formulation with enhanced absorption & bioavailability now in TrioQ

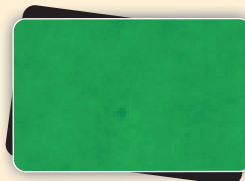

TrioQ is an advanced unique CoQ10 formulation specially designed as liquid solubilisate which imparts enhanced absorption over a broader temperature range.

A single dose oral administration of COQTEN COMPLEX* and UBIQUINONE STANDARD POWDER has resulted in higher absorption of COQTEN COMPLEX* with a C_{max} of 29.343 mcg/ml whereas the C_{max} for standard powder was found to be 19.06 mcg/ml.

*COQTEN COMPLEX** has shown 54% greater absorption with 20% of the dosage of Ubiquinone standard powder and nine folds more steady state bioavailable than Ubiquinone standard powder with equivalent dose.

Transmission reflection microscopic image (TRM) with zero crystals in sample of COQTEN COMPLEX* in TrioQ taken in (IICT) Indian Institute of Chemical Technology Hyderabad Dt. 19.05.2014 Sample Ref.No. 23899

TARGETED AREAS OF OUR BRANDED NUTRITIONAL SUPPLEMENTS
